Three-Year Planning Template for Degree-Granting Programs

Name of Department:	Biology
Degree (Example: AAT-History):	AS - Allied Health

What PSLO will you be assessing during this cycle and why? (*If you decide to assess more than one PSLO, please indicate that here as well*).

PSLO: Explain and apply the basic processes of homeostasis in humans from the cellular to the organismal level.
Reasoning: We want to use traditional exam assessments to evaluate students' ability to retain and apply concepts. Changes in study practices, including increased use of AI and decreased completion of assigned readings, have raised concerns about these skills. This assessment will provide a baseline for evaluating strategies to improve student performance.

Instructions:

1. In the Course column, list all of the courses that are part of the program you are assessing.
2. For each semester, indicate which CSLO(s) you plan to assess.
