

March 2, 2016

Hello Campus Community,

This afternoon I am at the District with interviews for a Hiring Committee and cannot be with you, but I will be doing a regular check-in on Accreditation so that we can be moving in the same direction over these next 10 months before our Self-Evaluation Report is due. Below are some important notes.

College Council is directing the formation of an Accreditation Steering Committee which will increase to become an **Expanded Steering Committee** during times of Recommendations or report writing.

There is an opportunity to learn from experts on the **Foundations for Assessment** on Friday, April 15th; if you are interested in attending, please let me know by Wednesday next week, by email.

AS FACULTY - this spring all should be:

- Reviewing and checking off your Program Outcomes for printing in the catalog (same as the ones in eLumen)
- Checking that course outcomes are mapped to your program outcomes (in eLumen)
- Assessing outcomes on the course level and entering data (in eLumen); if you are not sure about the schedule for assessing which outcomes in courses, you should be checking with the full-time faculty of that discipline

As Classified Professionals - this spring you could be answering these questions:

- How am I connected to Program Review?
- Is our area working with Student Learning Outcomes, Service Area Outcomes, or Administrative Unit Outcomes?

Stay tuned; there's more to come!

Roanna
