

LPC Mission Statement

Las Positas College is an inclusive learning-centered institution providing educational opportunities and support for completion of students' transfer, degree, basic skills, career-technical, and retraining goals.

LPC Planning Priorities

- ❖ Implement the integration of all ACCJC standards throughout campus structure and processes.
❖ Establish a knowledge base and an appreciation for equity; create a sense of urgency about moving toward equity; institutionalize equity in decision-making, assessment, and accountability; and build capacity to resolve inequities.
❖ Increase student success and completion through change in college practices and processes: coordinating needed academic support, removing barriers, and supporting focused professional development across the campus.
❖ Coordinate resources and provide professional development for effective online instruction and remote delivery of student support services and college processes to advance equitable student outcomes.

- **Discussion Items**

- Learning Outcomes

Ann Hight, SLO Chair

- > SLO Committee priority to look at institutional-level outcomes. As you know, SLOs have changed and morphed into more meaningful things.
- Saw the GE Pattern new regulations, and thought that this would be an opportune time for SLOs and curriculum to discuss / work together.
- > She's been attending national talks on SLOs, part of it being the Degree Qualifications Profile (baseline set of reference points about what a student should know): Specialized/Industry Knowledge; Broad and Integrative Knowledge; Intellectual Skills; Applied & Collaborative Learning; Civic/Democratic and Global Learning.
- > SLO & Curriculum committees could do some interesting things and solidify what it means to graduate with a degree (knowledge & skills).

Comments from CC Members:

- > Elizabeth O: A subcommittee is working on the GE Pattern and is looking forward to further discussion.
- > Mike S: Does the learning outcomes list you shared serve as a functional list – are you revising them? Developing them?

> Ann thinks it's an ideal time for the 2 committees to integrate / share discussion on this. We can have a lens of "Why do we want our students to take X cluster of classes?" We should have something foundationally similar.

> Craig: We don't have too much say—we work with UCOP and the CSU Chancellor's Office on it; defining criteria for Ethnic Studies & Math too – CCCs won't have a choice of what the criteria. Look at GE Philosophy?

-Ann: She wants to have common SLOs across courses (ISLOs). Why does this GE Pattern exist and how can we explain this to our students?

> Craig: How about the measurable objectives?

> Ann: She's looking at higher-level thinking with SLOs (thinking really started changing in 2014), so they can do something with what they learned.

- Mike: Agrees that the College should have a responsibility for this, but we haven't examined it yet. It's an interesting idea to see GE-ISLO alignment.

> Ann noted the survey of exiting students that we do.

> Craig: Do we want to do something in addition? He thinks it's doable. Technological communications are part of some 4-years' desired goals.

- Area of Emphasis Degrees and Equity Kristina Whalen
 - Over the past year: Looking at the data for those students who are awarded large liberal arts & STEM degrees. The national data showed some equity considerations, sometimes referred to as "unstructured" degrees. There can still be a disparate number of classes for the degree.
 - Equity data is showing that students who attain those degrees are less likely to transfer; they tend to be pursued by underrepresented students.
 - These degrees are easier to award because there are so many options.
 - Compelling questions are being asked about the students who pursue these.

Comments from CC Members:

> Craig: Gave historic background on the history of larger Liberal Arts & STEM degrees. Updates have been made over the years; good discussion during Curriculum Institute. Our partnerships with HBCUs etc. are transfer/ADT-focused -- don't have anything talking about transfer in them anymore.

> Kristina: Are we interested in looking at past student data?

> Elizabeth WB: Hundreds of students are enrolled in these. Not everyone is interested in transfer, e.g., some of her students. Some older / second-career students just want to complete a liberal arts two-year degree!

> Kristina: Perhaps we could reduce the number of them; working with counselors on which ones should still be offered & populations they serve.

> Craig: If we find there's a use, how about adding a Minor focus?

> Jose: We have a lot of students who go on to UC Berkeley. There's not always alignment. But many want to leave LPC with a complete degree.

> Craig: To Jose - They created a UC Pathway degree for BIO. They're going to end up aligning more. Do you still think it would be a good benefit? (Jose: He wants to help every student apply what they've done and graduate!)

- Apprenticeships Kristina Whalen
 - We're having a lot of rich discussion about this right now.
 - Lots are coming to the College in short order.
 - CCCCCO sees this as a strategic direction to help CA recover; grant funding is being put behind this. The District-level Apprenticeships Director is doing a great job of bringing new apprenticeship opportunities to both colleges.
 - It helps with enrollment management gains -- can claim apportionment. And they don't cost any FTES. We claim supplemental instruction, but 80% goes to the District (economic development & contract education).
 - This can be taxing on Admissions & Records though; and we require a faculty champion to put them through.
 - Also – how about including apprenticeships in Program Reviews?
 - Upcoming: The latest is a Child Welfare Worker apprenticeship. And then we need to slow down and talk about structure / gain vs. cost.

Comments from CC Members:

> Craig: An Apprenticeship Task Force is starting next semester.

> *Kristina: Sarah Holtzclaw is willing to come present to us about this.*

> Per Elizabeth O: Sarah H. should present to Academic Senate first, then possibly Curriculum Committee. It would be good to have her talk to other involved parties, and maybe speak at a monthly LPC Town Meeting too.

- Changing “Strongly Recommended” [requisites] Elizabeth Owens
 - New terminology: Advisory? Recommended Preparation?
 - Draft language: “Before entering this course, it is advised that the student should be able to:”
 - Craig: “Advisory” language from CID descriptors.
 - *Elizabeth O: The closer we're aligned with CID, the better.*
 - How about “Advisory of Recommended Course Preparation:”?

- **Reports**

- **Vice President's Report** Kristina Whalen
 - We've conducted Chair interviews last Friday, in collaboration with the Academic Senate president. The new Chair will be announced soon.
- **Chair's Report** Elizabeth Owens
 - This is her last meeting as Chair. Thanks to committee members for everything.
- **Articulation Officer's Report** Craig Kutil
 - IGETC Ethnic Studies discussion has really blown up. CSU Chancellor's Office has taken some issue. It sounds like the CSU C.O. wants CCCs to model CSU GE exactly. They're meeting again this Thursday. UCOP says it's pretty late in the game. Not sure if IGETC's ready. Also, Sociology was approved.
