Public Comment (This time is reserved for members of the public to address the Curriculum Committee. Please limit comments to three minutes. In accordance with the Brown Act, the Curriculum Committee cannot act on these items.)

Jennie Graham (Math faculty): She is here about today's Math discussion item. Looking at Title V, it states courses that satisfy this requirement must be at/ above Intermediate Algebra. BUSN 33 uses very little math. She is aware that other campuses have approved courses like BUSN 33, but due to possible misunderstandings. She strongly disagrees with including BUSN 33. Math faculty hope that they are invited to the Curriculum table to future discussion, thank you.

Michael Peterson (Math faculty) – He thinks BUSN 33 is a fantastic class and everyone should take it, but it does not have a lot of arithmetic in it. They would be happy to partner w/ BUSN, e.g., in BUSN Statistics (like at Chabot College – There is more emphasis on business applications). Thank you.

First Readings Faculty

*All courses listed below can be taken only 1 time for credit unless otherwise noted.

New Noncredit Courses

NNTR 201 (Introduction to Nutrition Science): 54 Hours. Letter or P/NP. Recommended Course Preparation: Eligibility for college-level composition (ENG 1A, ENG 1AEX, or ESL 1A) as determined by college assessment or other appropriate method. Discipline: Nutritional Science & Dietetics. (Effective Date: Fall 2023)

Marsha Vernoga presenting.

- This mirrors the NTRN 1 course.
- It includes an adult education audience / older adults (audit pilot).
- There are no differences between NNTR 201 & NTRN 1.

Committee Comments:

- CK: Can we add a measurable objective that talks about the application for older adults?
> MV: I think so. Obj. "O" is about the lifespan. She thinks these objectives would be applicable to everyone.
- SD: Maybe you could note how cardiovascular disease affects more older adults.
- CK offered to work with Marsha on this.

- JG: What happens if a student takes it & passes it and then realizes they should have taken it for credit?
 - > Per CK: They could do a credit by exam.
- EB: How about the Health & Safety noncredit area/audience? Let's have a better CR vs. NC distinction.
- MS is concerned about the enrollments/marketing.
 - > CK: Maybe we'd speak to the District about this. KW/EWB: This could be auditing. We're working on the marketing with a new marketing person / doing targeted outreach to those audiences. Note: If it is auditing, then they cannot turn around and do credit by exam.

- He changed it from a Recommended Course Prep to a Prereq – to make the course UC-transferable.
 - > LIT 90 (UC Santa Cruz) is a comparable course.
- Also, he updated typical texts.
- Addition to the equity-based curriculum too. Students write stories based on their own experiences.

Committee Comments:

- CK: Prior to AB 705, it was strictly English Composition.

- He could possibly submit it for IGETC / HUMN. It might delay the effectiveness, 1 year longer.
 - > Craig will investigate this and get back to Marty.
- EB: Can we modify the language so it's consistent w. the ENG 1AEX etc.?
 - > CK: We could.

ENGR 44 (Introduction to Circuit Analysis): 4 Units (3 Lecture, 1 Lab). Letter Grade. Prerequisite: PHYS 1A with a minimum grade of C. Discipline: Engineering Technology. (Effective Date: Fall 2023)

Jen Decker presenting.

- She added skills; equity-based curriculum, evaluation /to address diverse learning styles; updated texts
- She might make Physics a stronger prereq for this [Note: It would add 2 semesters to get to this course]
 - > She says she needs to do more research on how this impacts student success.

Committee Comments:

- MZ: Could Jen reach out to the Guided Pathways liaison as she is thinking about changing this?
- JG: He concurs with MZ's suggestion.

Dan Marschak presenting.

- The faculty member who regularly teaches this has changed her approach. It used to be very jazz-centered. We have tried to make it more general /not so jazz-specific.

Committee Comments:

- EB: Recommended Course Preparation does not need to be in the catalog (CK: We can remove it).
- "Lab" okay? CK: He rarely sees abbreviations of course titles (but in Banner, they must be abbreviated /30-character limit). The abbreviations predated our use of CNET / started in Banner.

PCN 3 (Theories And Concepts Of Counseling: An Introduction): 3 Units (Lecture). Letter Grade or P/NP. Prerequisite: N/A. Discipline: Counseling. (Effective Date: Fall 2023)

Primary Modifications – Typical Texts.

Primary Modifications – Advisory Skills, Measurable Objectives, Methods of Evaluation, Typical Texts.

Jose Calderon presenting.

- 3: Just typical texts updated; added equity-based considerations
(EB: Reference to American Indian – should it be Native American? JC: Yes. EB: We will update that.)
- 50: Texts updated.

Committee Comments:

- EB: For 3, should the reference to American Indian be Native American or something else?
> JC: Yes. We will update that.
- EB: Skills analyses: Very helpful & Desirable -- but not Critical?
> JC: Need to talk to Heike. (CK's Note: Need to keep things that are required by C-ID / something that is not our decision.)
> CK: Why don't we revisit this discussion? And add some sort of note-checkbox in CNET.
(Note: See Liz's July report on prereqs.)

Scott Miner presenting.

- 73 course is exactly the same content as the Apprenticeship OSHA 10 proposed by Brian.

Brian Hagopian presenting.

- These support the courses presented at the last CC Meeting.
- These are coming from Fresno City College. They would really like to have their laborers move up in the ranks. They have an interest in offering AS degrees too, which may come later.
- Differences: LiUNA! is all of the courses. This one is for when you are using the construction equipment to do driveways etc., and the other is for asphalt and concrete. Supervising people building up or building out?

Committee Comments:

- CK: For work experience, there’s a units question.
 - > BH: *The program is 4 years total. These students would be eligible for 60 units, but we are only able to apply for 16 units.*
- SD: CPR in traffic control (APCL 1111) is in KIN. How does that work -- is the content the same?
 - > BH: *These are not taught on LPC’s campus; they are held in San Jose.*
 - > CK: They could be cross-listed. Duplication of credit concern.
 - > SLOs need updating [*Liz will work with Brian on this*].

Discussion Items

- BUSN 33 as a Math Proficiency course for local GE Michelle Zapata
 - *Opening conversation, per Chair Bell (5 min. for MZ, 5 min. for CK)*

Michelle Zapata presenting.

- Question brought up by counselors / of concern to the Counseling Dept.
- A couple weeks ago, she met with a student [who's in her 60's] who felt discouraged about the math requirement. It has been 40+ years since she has had a HS-level math course. They discussed BUSN 33 as a prospective math satisfaction. She really just wants a local AA degree. Transfer GE is not necessarily appropriate for her.
- She wanted to see what the Committee thinks about this idea.
- She shared the Title V language ("comparable to...Intermediate Algebra")
- They looked at other CA community colleges, shared – there were 8 colleges/examples (Cañada, Chaffey, CCSF, College of San Mateo, Copper Mountain, Fullerton, SBCC, and Shasta).
- Also: An additional 9 CA community colleges simply use broader language.

Committee Comments:

- EB: So what we're hearing is this: We have discretion; and there is precedent.

Craig Kutil presenting.

- Shared ASCCC slideshow /dealing w. AB 705. Coming at it in his role as an AO/following Ed Code.
- See Title 5 Section 55063* (Oct. 21, 2022 update by WestLaw).
- This deals with communication & analytical thinking
- Executive Order 1100 has to do with CSU GE /prereqs; he shared the language.
- UC & CSU requirements for math: 3 years
- This talks about courses that are & are not allowed
- He thinks it would be inappropriate for BUSN 33 to count as a Math Proficiency course for local GE
- Plenary: Breaking up communication & analytical thinking
 - > Want the standard to be MATH or STAT
 - > Will remove courses that currently count on our local path

Reports

- **Vice President's Report** Kristina Whalen
 - She appreciated Michelle's presentation /start with a story – complicated relationship that people have with meeting the math requirement.
 - Math appears to be the biggest obstacle for students. And what Craig presented is really interesting to discuss. But it's of interest to her to explore the other colleges / she sees that they read Title V differently. There is room for further discussion.

- **Chair's Report** – N/A Erick Bell

- **Articulation Officer's Report** Craig Kutil
 - A few shocking things just happened at Plenary, including breaking up communication & analytical thinking. Also, there was a resolution that was strongly opposed – we do not want to make special accommodations.
 - He talks to colleagues about these things.
