Accessibility Checklist

☐ Heading styles are nested in sequential descending order

☐ Lists are formatted using the default list tool

☐ Link text is meaningful and in context

☐ Avoid using URLs as links

☐ Underlining is not used for emphasis

☐ Tables have properly tagged column/row headers

☐ Color contrast is sufficient

☐ Color alone is not used to convey meaning

☐ Images have appropriate alt text

☐ Images not related to page content are designated as decorative

☐ Reading order is correctly set for PowerPoints

☐ PowerPoints use built-in accessible slide layouts

☐ Word documents are accessible

☐ Videos have proper captioning (not auto-generated)

☐ Audios have appropriate transcripts

☐ Flashing content, such as animated GIFs, are not in your class.

☐ Captions are available for live video conferences if you have a student in your class needing them

☐ Videos/audios are not set to auto-play
