Seerat Kaur

Running For: Director of Communication, Director of Club Outreach, Director of Events

Major: Computer Science

Why do you wish to run for an LPCSG Position?

I would like to run for a LPCSG position because I love involving myself in the communities I'm a part of, it brings me great joy to serve the people around me. I am passionate about creating a positive change on campus, promoting diversity and inclusion. And I am committed to fostering a sense of community and belonging on campus, I understand that going into community college can be a very uncertain time, and it would be an honor to find ways to help students overcome this uncertainty

Please list your current or past leadership experience.

-1 year freshman class Vice President at Tracy High

-3 years Class Secretary at Tracy High

-Key club leadership team tech and media coordinator

-Bhangra club president in high school

-Center Manager at Code Ninjas

-City of Tracy Internship

What makes you stand out compared to other candidates for the position you are applying for?

What sets me apart is that I understand the needs and concerns of several students. For all of middle school and High school, I have dedicated myself to my schools student governments to serve my classmates. When it comes to organizing events, leading discussions, or simply listening to the people around me, I am truly the best person. I thrive in dynamic environments and use my creativity and problem solving skills to develop innovative solutions

What aspects of student life would you seek to improve? How would you do so?

Mental Health! This is a crucial aspect of student life, and several people, including me, struggle with their mental health. It is truly important to make sure we literally hand out solution to our students. We can hold several workshops and events. I rlly think having an art therapy event could be beneficial, or perhaps a pet therapy day where you can collaborate with a local organization and bring pets in. We can hold fairs to educate people on local resources and support services. There is definitely a lot we could do surrounding mental health, the whole idea is students should look for it, it should be handed to them, right in front of them
