Self-Placement Course Workload Estimates

Workload varies by instructor, so all information should be taken as an approximation. English 1A and 1AEX have the same workload, but 1AEX provides two additional lab hours during which instructors will provide support for the work. Students must have a verifiable high school GPA of 2.5 or higher—or pass English 104—to enroll in English 1A.

All workload is an	English 104	English 1A/English 1AEX
