Hi Mike,

Thank you for the map, this is very helpful.

Steve

Hi Steve,

I worked with Sherman a few weeks ago to come up with a map of room 1806. As you know, this room has a lot of specific software and computers dedicated to specific instrumentation. I hope that this map will make it easier for different IT professionals, faculty and staff to figure out how the room is set up. I'm open to suggestions from everyone. I'll put a version of this map up in 1806 as well.

Thanks,

Mike Ansell  
Chemistry

**Subject:** Instructional Computer Updates for Fall 2018 – LPC

We are providing the faculty with a friendly reminder to start considering any major anticipated software changes or updates that will be necessary for the upcoming fall semester in both the computer lab locations and the classrooms. The Las Positas Technology Department will be working throughout the summer on a number of projects and subsequently starting the software update process in the instructional areas for Fall 2018.

Having this information as soon as possible will help us to better serve our faculty and students without any significant disruptions. In addition, there has been an increase in the use of instructional spaces over the summer. It is for this reason we can no longer take request through July. The department is limited on the availability of getting systems re-imaged, so please provide us the request as soon as you can. Delaying the request into July may result in not completing the task, and the install may be delayed until the next cycle of updates.

To submit a request please sign in to the Service Now portal by going to the following link: <https://clpccd.service-now.com> (use the same credentials as your email)

Select Request Services – Then Select – **“Install Software Update / Computer Lab or Instructional Computers and Image updates LPC”** Each request will be evaluated and prioritized according to the needs of the corresponding computer lab.

**NOTE: We are very limited on staffing so please only submit what is absolutely necessary.**

This email will be distributed again before the week of June 3rd.

If you have a question, select Reply - Please do not select Reply All

Thank you for your participation and support in this process.
