Welcome to Extended Opportunity Programs & Services

Las Positas College's Extended Opportunity Programs & Services (EOPS) assists low income and educationally disadvantaged students to achieve their educational and career goals. EOPS is a support program available for the full-time student who can benefit from a variety of extra services that promote academic success and personal growth.

EOPS provides financial assistance and support services for low-income students with unique and special needs created by language, social and economic situations. A variety of programs, services, and activities have been directed to the identification, recruitment, retention, and transition of EOPS students to four-year college/university and/or career placement.

Currently due to the COVID-19 Shelter In Place, all of our counseling services have been moved remotely and are available through Cranium Cafe by ConexED: online, chat, phone, or email.

Please [CLICK HERE](#) for eligibility and application instructions.
