Subject: [EXTERNAL] Announcing New DEI Learning Modules for California Community Colleges

California Community Colleges

Dear Colleagues,

It is my pleasure to announce the launch of two new learning modules available to you on the [Vision Resource Center](#) as a part of our system's ongoing efforts to foster inclusive and antiracist learning and working environments. **These two professional development learning modules focus on cultural competency and implicit bias** and are meant to serve as resources to engage in meaningful conversation and gain a deeper understanding on structural racism and institutional biases.
