Privacy of Records (FERPA – Family Educational Rights and Privacy Act):

When a minor enters higher education, the minor is afforded the rights of an adult. Therefore, parents can not contact the instructor for information regarding their children, nor can parents attend class or assessment with the student. The student may sign the consent line on the Recommendation for Concurrent Enrollment form authorizing the sharing of information by the College with the parents. If this signature is on file, the student services administrator will provide information.

Course Credit:

High schools determine if they accept our courses for high school credit. Students must request Las Positas College to send transcripts to the high school. This is not automatically done. Grades are issued approximately three weeks after the semester ends.

Responsibilities:

The primary educational responsibility for high school students who participate in the Concurrent Enrollment Program rests with the high school. The high school assumes the responsibility of obtaining parental permission for students applying for admission and participating in the Concurrent Enrollment Program. Home-schooled students must obtain the signature of the appropriate school administrator. The Application for Admission, Concurrent Enrollment Program Application and Authorization Form for Minors must be fully completed along with all required signatures.
