

Exploring Healthcare Careers

Spring 2018

Enter this growing industry and advance your career!

Health Care and Social Assistance is expected to be the fastest growing industry in Alameda County and the Tri-Valley between now and 2022!

The Local Workforce Development Board predicts a 10% growth in healthcare jobs in Alameda County, with over 2,000 new jobs in the Tri-Valley alone!

February 15 - May 24

Thursdays, 6-9pm

\$129

Registration: <http://bit.ly/PACE-Classes>

No class on April 5.

Price includes required textbooks checked out for semester.

COURSE DESCRIPTION

Learn the basics of human health, the healthcare system, and healthcare careers. Gain tools to pursue a career in healthcare and confront healthcare issues in today's world. Topics include: diseases; basic medical terminology; and physiological, psychological, ethical, social, and public health issues. You will analyze professional opportunities in the allied health field, clinical programs (pre-nursing, EMT, surgical technology, medical assisting), and health administrative support. This course is available for articulation with Las Positas College.

INSTRUCTORS

Joe Carlucci: Patient Safety Officer and Director of Physical and Sports Medicine, Stanford Healthcare-Valleycare

Laurie Erceg: Health and Family Education and Administrative Medical Assisting Instructor, Owner of CareerTrack Plus
