What is Job Shadowing? Job Shadowing allows students an opportunity to network and learn from professionals of their career interest. Ever wonder what it would be like to ask an Attorney, Teacher or Nurse Practitioner how they began their career, what type of work is involved with their career and what are some of the challenges of their career?

The Livermore Rotary members offer students of Las Positas College the opportunity to explore careers by spending half a day with professionals from different career fields.

Wednesday, April 18, 2012
