

Prior College Transcript Evaluation Form

Student: complete Student section and submit form directly to the Financial Aid Office

Federal Title IV Financial Aid regulations require that a student who receives financial aid who intends to receive credit for courses taken at previous colleges, must submit official transcripts to be evaluated to determine transferable units. All such prior college transcripts must be evaluated to determine the number of units which will count toward fulfillment of requirements for the student's current academic program. **Submit this form directly to the Financial Aid Office after the college has received all of your prior college official academic transcripts. The Student Records section of CLASS WEB or the ZONE will indicate if your transcripts are received.**
