5. First Reading of Curriculum Proposals/ Presentation:
   - DE Addendums:
     Lucas Hasten: We have many students interested in doing multiple
     independent study courses. It is not yet clear whether any students
     would like to do this in an online environment, but would like for
     students to have the option. This will move forward for voting.

   - Brian Hagopian: This fall lectures will be online, while labs will be on
     campus. These courses would only be moved fully online if partially
     online was no longer possible. This change would require
     specialized software, which was utilized this spring for free. In the
     future, the college would need to purchase the software (which is
     possible). This will move forward for voting.

Motion to APPROVE DE Addendums:
MSC: Kutil/Amaya/Approved

8. Report

• Vice President’s Report
  Kristina Whalen will be working with Madeline Wiest & Elizabeth Owens to compensate committee members for tech review, summer curriculum committee meetings & DE addendum parties. This will be added to September paychecks. She suggested that the committee create a deadline for launching DE addendums this fall.

• Chair’s Report
  Elizabeth Owens wished everyone a happy first day of the fall semester. The committee will have a lot to do this semester. We will discuss a DE Addendum deadline at our next committee meeting.

• Articulation Officer’s Report
  Craig Kutil explained all CSU GE, IGETC, UC T results have been received. He will send out notifications to faculty members regarding any denied requests. He will be working to create & revise several AD-T’s this semester. He is working on road maps for AD-T’s to CSU East Bay as part of the CAN project. He will be working with faculty & guided pathways to fill in the GE portion. Another project for this semester will be updating the articulation website & private college articulations (which have been slow since COVID). ASSIST will no longer be fixing issues and instead are working to create a new platform. I will be meeting
with A & R to work on processes for course substitution requests & course equivalency possibly using TESS.
