2. Campus Safety report

Sean Prather provided the summary for June, July and August crime and non-criminal reports. It is typical for the summer months to be slower and have less activity because the campus has a lower student population. The beginning of the fall semester has been very busy this is typical. Sean is currently preparing information for the U.S. Department of Education as it pertains to reporting and publishing annual crime statistics to meet the Clery Act requirements. At the next meeting, the October statistics will be provided.

Sean did inform the committee that as part of the new measure B there will be emphasis on road safety improvements.

3. Health Center report

Dayna Barbero provided the statistics for the Student Health Center. Dayna reported that the health center seen a 60% increase this summer than the previous summer. The health center has 2 MFT now. The health center has experiences seeing an increase in students that have health coverage but have high deductibles or have issues receiving care from their primary care physicians due to long wait times for appointments.
