SECTION 3: LPC MISSION STATEMENT AND LPC PLANNING PRIORITIES

LPC MISSION STATEMENT:

LPC is an inclusive learningcentered institution providing educational opportunities and support for completion of students' transfer, degree, basic skills, career-technical, and retraining goals.

LPC PLANNING PRIORITIES:

- Establish regular and ongoing processes to implement best practices to meet ACCJC standards.
- Provide necessary institutional support for curriculum development and maintenance.
- ❖ Develop processes to facilitate ongoing meaningful assessment of SLOs and integrate assessment of SLOs into college processes.
- Expand tutoring services to meet demand and support student success in Basic Skills, CTE, and Transfer courses.

Specify how the equipment supports LPC's Mission Statement and Planning Priorities:

Choral rehearsals require excellent acoustics, sight lines, effective spacing, and the ability to sit or stand as necessary. The addition of the requested risers fulfill these specific requirements, aiding in LPC's goals of providing students the support necessary to successfully earn their degree, transfer, build basic skills, and/or provide training/retraining for their career(s). Additionally, the risers fulfill LPC's priorities by meeting ACCJC standards (academic quality, institutional effectiveness, institutional integrity, physical resources) and providing institutional support for the further

SECTION 4: EDUCATIONAL ITEMS - PROGRAM REVIEW

Specify the educational programs this equipment supports:

Directly, this supports all vocal and performance classes: Choral program, vocal jazz program, voice classes, private voice and piano lessons, guitar classes, music lecture classes, and all performance opportunities. Indirectly, this supports better sight lines and acoustics for all classes held in 4130. The risers also give the desks a permanent location, helping to keep the room organized (the desks are periodically left out of order currently, as there are no indicators of where the desks should be located).

If this equipment is included in your Program Review, please include the exact wording. If equipment is not included, explain why:

Additional equipment needs: New pianos for performance spaces and practice rooms, up-todate computer systems, modern sound system equipment, choral risers, big band and orchestra equipment, new equipment necessary for upcoming classes being added (especially the several specific equipment needs of the Music Technology Certificate), instrument maintenance and tuning expenses.

Additional IER include: Music Recording equipment, software, and up-to-date computers, a wi-fi

SECTION 5: TEACHING AND LEARNING

Describe in detail the impact this equipment will have on teaching:

The ability to effectively teach choral music is partially reliant on the requirements listed above (excellent acoustics, sight lines, effective spacing, and the ability to sit or stand as necessary). Currently, the goals of high-level music making are hindered by the lack of these risers in the room. With these risers, the director will be able to hear all parts equally, correctly place voices by vocal timbre, have consistent eye contact with all members of the choir, teach performance techniques that require risers, and use the chairs/desks as necessary. This will lead to much more effective teaching Describe in detail the impact this equipment will have on <u>learning</u>:

Similarly, the above impacts and goals of teaching also apply to the students in the choral rehearsal. The students currently struggle with balance, blend and sight lines, as they are unable to hear and/or see one another consistently. The addition of risers will vastly improve their ability to achieve the listed SLOs of the choral classes, as most choral music is rehearsed and performed in this format.

300 # of students Each academic year, this equipment will impact: $\frac{20}{2}$ # of classes/sections

· ·					

SECTION 6: OUTCOMES (SLOs)

Using your documented SLOs, specify how the equipment will enable student learning outcomes to be

1. Students will demonstrate an adherence to recognized standards of professionalism in a rehearsal setting. - Professional choral ensembles regularly sing, rehearse, and perform on risers of this format. This request is consistent with typical industry standards for choral rehearsal space. Additionally, the ability of the instructor to see all students in the classroom is improved, leading to less trouble in the back row of the room.

2. At the end of the semester the students will demonstrate the ability to sing on pitch in a section and

What are the consequences related to learning outcomes if request is not funded?

Simply, the above requirements listed for an effective choral rehearsal will fail to meet acceptable standards. This will directly hinder the SLO outcomes of the course and will lead to lower qualities of rehearsal, performance, and overall learning environment.

SECTION 7: TOTAL COST OF OWNERSHIP (FINANCIAL & SUSTAINABILITY

What is the potential life span of the requested equipment?

The requested risers are considered an industry standard and are expected to last several years (20+ years is very regular for this type of equipment).

If new storage is needed, describe the storage, location, and costs: (Specific storage costs should be detailed in the "<u>Part A: Initial Start-up Costs</u>" section below.)

N/A

What will be required to maintain the equipment, such as regular servicing or upkeep? (Specific on-going costs should be detailed in the "<u>Part B: On-Going Annual Operating Costs</u>" sections below as applicable.)

Regular maintenance may include checking/tightening assembly screws on an annual basis for safety purposes by M&O. Risers will not be moved on a regular basis and will function as a mostly permanent installation.

Explain how this equipment meets or exceeds basic sustainability efforts and/or provides renewable resources to the college:

The requested risers are expected to have a very long life span and require very little maintenance, proving highly sustainable for their intended function.
