

LPC HSI Gateway to STEM Success Program

Monthly Progress Report

September 2018

Award: P031S150011 - CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT
Las Positas College

Completed Activities in Previous Month

1. August 1 – 31 st
2. There were No other planned activities during the summer 2018
Our HSI Gateway to STEM Success Program activities are driven by our cohort which includes tutoring, mentorship, math jam, and math emporium. All of the mentioned activities only take place during the regular spring and fall semesters. Thus, we have no planned activities until September 2018.

Challenges:
There were no challenges in the current month

Planned Activities pertaining to current month

1. Sep 4 th	HSI Monthly Team Meeting Continued planning, discussing and reporting grant activities.
2. September 25-27 th	HSI External Evaluation The HSI team will be going under its annual external evaluation pertaining to year three of the grant. The team is preparing the required documentation as requested by the evaluators.
3. September – Throughout the Month	HSI Club meetings. Continued meeting with the club. Participation varies from 12-20 students.
4. September – Throughout the Month	Peer Mentoring. We are starting a peer mentoring program with the support of 13 former HSI students. The students will be trained to become peer mentors so that they can support and coordinate mentor mixers for the new cohort 2018-19.
5. September – Throughout the Month	HSI Math Tutoring Students attended a one-hour math tutoring session with Math Professor, Kristy Woods. Participation varies from 5-10 students.
6. September – Throughout the Month	

Jennie Graham will continue to work on the updates and changes needed for the online environment, labs and other materials in the Math Emporium
Kristy will work on the revising the corequisite support courses for the transfer level math classes (Math 30: College Algebra for STEM, Math 39: Trigonometry, Math 40: Statistics and Probability, Math 47: Math for Liberal Arts) and resubmitted them to the Curriculum Committee for review. Marketing and coordinating for the Fall Math Jam registration will be started.

Challenges:

No challenges are expected this month.

Highlights:

We are very excited about the peer mentoring program. The support of our former HSI students has been phenomenal and worth mentioning in this section.
