### eLumen-Program Review Survey

Response Status: Completes

Filter: No filter applied

Dec 02, 2010 8:43 AM PST

#### 1. How helpful was eLumen in writing your program reviews?

Very Helpful	1	3%
Helpful	9	28%
Not very helpful	11	34%
No help	4	12%
Not applicable	7	22%
<b>Total</b>	<b>32</b>	<b>100%</b>

#### 2. Were you able to discern any trends when you analyzed your eLumen SLO data?

Yes. I was able to observe some trends.	7	23%
No. I was unable to observe any trends.	8	27%
Not sure—need more qualitative data to provide context.	15	50%
<b>Total</b>	<b>30</b>	<b>100%</b>

#### 3. Were the observed trends meaningful?

Yes	7	29%
No	17	71%
<b>Total</b>	<b>24</b>	<b>100%</b>

#### 4. What would you like to see in eLumen? (Click all that apply)

A place for qualitative faculty-provided data, for example reflecting on student assessment results, describing context or timing of assessment, etc.	12	39%
The ability to correct or change a rubric after it has been evaluated.	22	71%
The ability for the coordinator of the discipline to review all of the data for the discipline.	19	61%
The ability for the coordinator of the discipline to review all qualitative data.	18	58%
The ability to archive meeting minutes, assessment rotation cycle, and other SLO information for discipline.	7	23%
The ability to enter course or section averages instead of individual scores.	22	71%
Other	11	35%

#### 4. What would you like to see in eLumen? (Click all that apply)

Respondent #	Response
	1 easy comprehensive interface.
	2 some kind of automatic relationship with BlackBoard
	3 As an adjunct, this whole process was murky and difficult. Perhaps I am not paying close enough attention, but I didn't feel well informed. When I was finally ready to put in SLOs, I had to figure out how to get access to the system, since it required a different login and password than I was using other places. If you want to encourage people to do this, make it easier for them to do so.
	4 the ability to easily add or write a slo. the entire process is cumbersome and oxymoronic
	5 less complicated, more user-friendly software.
	6 I have a comment regarding Question 2: At this point for our program review the data was meaningful because for the assessed SLOs only two instructors taught the different courses at different times. However if/when more faculty in our program begin to record SLOs it will become more difficult to make meaning out of trends in eLumen data.
	7 I still find eLumen exceedingly difficult to use.

8 I think it works surprisingly well. I am a bit behind entering my data this semester -- apologies. Overall I think the process is going well and I heartily appreciate the decline in "shrieking" this semester. I believe we all know the value of SLOs and appreciate the encouragement without the insults.

9 Would like to know what is meant by the statement "The ability for the coordinator of the discipline to review all of the data for the discipline." Do you mean on a section level? Because we can get a summary for a course now.

10 easier accessibility

11 ability to do some level of data analysis if not there already
