# Degree-Granting Programs

**Name of Department:** Mathematics

**Complete a separate template for every degree & certificate.**

We will collect two semesters worth of data for each PSLO since seeing the difference between Fall and Spring semesters can be enlightening. Based on the data presented in section 1C of your Program Review, we also want to start disaggregating the data by ethnicity for a closer look at the topics in the courses that may be preventing students from succeeding. The department tries to have a “closing the loop” meet every Fall semester to reflect and review the information gathered from the previous academic year. This information is then compiled and shared out on Program Review as requested, as well as with the department in a separate email.

| | Year 1 (2020-21) | | Year 2 (2021-22) | | Year 3 (2022-23) | |
