

Office of Student Life

July 1, 2011

Dear Club Members,

The 2011-2012 school year is already underway! I'm excited to be a part of a growing culture to get involved with activities and clubs on campus. The goal is to improve student life - and many of you have taken the initiative. Most notably, by creating your own clubs or being members of the various clubs that Las Positas College offers their students. Last year there were several new clubs that were created. As the new school year begins, I am very confident that the same will hold true for this year. In fact, I am committed to taking student participation and campus activities to an all time high.

To get started, we must familiarize ourselves with the proper processes and procedures. The Club Procedures that you will find on the Student Life web site were created to serve as an educational guide that will help you stay organized through the process. Please take advantage of the tools made available to you and club members. For additional information, please refer to a copy of the ASLPC Constitution and Bylaws, which are available online or in the Student Senate office.

This process can be confusing at times, but this should not stop you from utilizing what you have at your disposal. I have gone through the process in the creation of a campus club, and in the end, it's totally worth it! As the President of the Associated Students, it is my passion and honor to serve you - the students. Innovation, creativity, and passion are all important. I firmly believe that the students at Las Positas College embody these qualities as evident through the forms of student life activities you involve yourselves with.

Take risks, create change, and be an active player in student life. Good luck to you and your endeavors. Strive to be an active and engaging student. This will undoubtedly enrich your life, as well as the lives of other students on campus. I am here at your service, as are other student leaders and staff. Let us know if you have any questions or if we can be of further assistance.

Best regards,

Amir Salehzadeh
ASLPC President
