# California Licensure Examination Reporting

In accordance with California State Assembly Bill 2086, Las Positas College has identified the following undergraduate programs that lead to employment for which passage of a state licensing examination or state certification is or may be required. Below you will find websites that provide additional information regarding the state licensure or state certification required for employment. Please note that not all websites include state licensure or certification passage rate information. Data will be updated as California licensing and/or regulatory agencies make the data available electronically.
