Conference

Advancing the pipeline of Asian Americans toward senior level administration in higher education is a priority of APAHE. Less than 1% of the three thousand colleges and universities in the United States are only led by a person of Asian American descent. At whatever level or role in academics, student, or administrative services you currently hold, we believe you have the potential to advance as a director, chair, dean, vice president or president. We acknowledge the core of who you are as an Asian American and can provide the tools and mentorship for advancement.
