About the LPC CalWORKs Program

The Las Positas College CalWORKs program serves CalWORKs students and their families by providing educational and career opportunities combined with an array of high-quality support services that enable CalWORKs students to complete their educational goals, find meaningful employment, and successfully transition into the workforce. Through collaboration and advocacy within the college and the community, our program prepares students for economic self-sufficiency through the attainment of higher education.

Due to the COVID-19 Shelter In Place, our office is currently working remotely and available via Cranium Cafe, email or phone.
