Concurrent Enrollment at Las Positas College

About Early College Credit

Early College Credit provides a list of curated courses for high school students in the Tri-Valley Area to complete through concurrent enrollment. Concurrent enrollment – also known as dual enrollment – enables high school students to take college courses, taught by college professors, either on our campus or at their school site. These courses can count toward the high school diploma, allowing students to get a head start on their higher education goals.

Participation in concurrent enrollment is likely to improve high school completion rates, increase college enrollment and degree attainment. It will also reduce time to degree and the cost of education while eliminating barriers to college and career.

Terms and Definitions

Concurrent Enrollment – Across California, the terms dual enrollment and concurrent enrollment are often used interchangeably. This usage is technically accurate, but dual enrollment is the preferred term. Students referred to as dual enrollment or concurrent enrollment students are all considered “special admit” students.

Credit - In general, credit classes are designed for students who are interested in earning college credits towards an associate degree, certificate, or transfer to a four-year college or university. Students who take credit classes receive a letter grade (A, B, C, D or F) at the end of the semester or term.

Dual Credit – Courses which provide high school students with the opportunity to receive both transcripts high school and college credit immediately upon completion of the class.

Dual Enrollment (Dual E) – The enrollment of K12 school district students part-time in a community college.

Early College – Early college high schools are innovative partnerships between charter or non-charter public secondary schools and a local community college, the California State University, or the University of California that allow pupils to earn a high school diploma and up to two years of college credit in four years or less. Early college high schools are small, autonomous schools that blend high school and college into a coherent educational program. In early college high schools, pupils begin taking college courses as soon as they demonstrate readiness. The college credit earned may be applied toward completing an associate or bachelor's degree, transfer to a four-year university, or obtaining a skills certificate.

Middle College - Middle college high schools have proven to be a highly effective collaborative effort between local school districts and community colleges. The goal of the middle college high school is to select at-risk high school students who are performing below their academic potential and place them in an alternative high school located on a community college campus to reduce the likelihood that they will drop out of school before graduation.
Non-credit - Noncredit classes are intended for students who want to gain general knowledge, learn a new skill, upgrade existing skills, enrich their understanding about a topic, or develop personal interests. Noncredit classes are also a way to enhance learning in credit classes. Upon completion of a noncredit class, students may receive a grade of Pass (P), No Pass (NP) or Satisfactory Progress (SP). Some noncredit classes do assign standard letter grades (A, B, C, D, or F).

Criteria for Eligibility

Students who are enrolled in 9th - 12th grades can participate in concurrent enrollment programs at Las Positas College. Adult School students obtaining a GED are also eligible for concurrent enrollment. Note: Students who will be in the 9th grade in the immediately following Fall semester are eligible to participate in the summer term.

To register for classes, concurrent enrollment students must complete the CCCApply and Concurrent Enrollment applications (sample forms can be referenced in Appendix A and Appendix C).

The Concurrent Enrollment application is an e-form that must be approved and signed by the student’s parent/guardian and school designee (either the principal or counselor).

Students should work with a school counselor to review the course catalog for courses of interest and any prerequisite requirements prior to filling out the Concurrent Enrollment form.

Student and Parent Rights Relating to Educational Records

Students have a right to know about the purposes, content and location of information kept as part of their educational records. They have a right to gain access to and challenge the content of their educational records. They have a right to expect that information in their educational records will be kept confidential, disclosed only with their permission or under provisions of the law. Students have a right to permit or prevent disclosure of certain information in their educational records. Parents have the right to expect confidentiality of certain information about them in student records.

For more information about FERPA please visit http://www.laspositascollege.edu/admissions/privacy.php

Student Conduct

The Chabot-Las Positas Community College District encourages all students to pursue academic studies and other college-sponsored activities. In pursuit of these goals, the student should be free of unfair or improper action from any member of the academic community. The district accords every student the right of protection. Students, however, are responsible for complying with college and district regulations and for meeting the appropriate college requirements. The Colleges have an obligation to maintain conditions under which the work of the colleges can go forward freely, in accordance with the highest standards of quality, institutional integrity and freedom of expression. In joining the academic community, the student enjoys the right of freedom to learn and shares responsibility in exercising that freedom. A student is expected to conduct himself or herself in accordance with standards of the college.

When a student is charged with misconduct, such charge shall be processed in accordance with the district policy and procedure to protect the student's rights and the college's interest. Disciplinary action may be imposed on a student for violation of law, district and college policy and regulations, the Education Code and the Administrative Code. Provisions related to disciplinary action shall be published and available to students, faculty, and management staff. Student conduct may result in disciplinary action by the college and/or criminal prosecution. It is the policy of the district not to impose student discipline for acts occurring away from the college and not connected with college activities unless the student's conduct affects the functions of the college.

For more information regarding Student Conduct please email the Dean of Student Services, jgagnon@laspositascollege.edu
Policy on Cheating and Plagiarism

Las Positas College promotes student success by providing high quality instruction and learning resources. The primary factor in student success, however, is the student’s devotion of considerable time and energy to the learning process. A high grade in a Las Positas College course is, therefore, something of which both the college and the student can be proud. It indicates proficiency in the material achieved through hard work.

Any form of academic dishonesty, whether cheating or plagiarism, undermines the value of grades for the entire student body and the College as a whole. It is an affront to every student who has labored to achieve success honestly and a threat to the College’s reputation for academic excellence. For these reasons, the College does not tolerate any form of academic dishonesty. Any student attempting to gain an unfair advantage in a course will be severely penalized, up to and including suspension from classes. The actions taken against the student will also be permanently entered into the student’s record in the case of repeated, flagrant, or serious incidents.

After a student’s free services are completed, future transcripts orders are placed through Parchment, a third-party online transcript ordering system. Course Policies (Withdrawals, Incompletes, Repetition, Attendance)

Withdrawing from Classes

Students are responsible for officially withdrawing from classes by the deadline date listed in the current Class Schedule. There is no automatic withdrawal process. Failure to follow the proper withdrawal procedures may result in a grade of “F”. Requests to withdraw from a class that are received by the “NGR” (No-Grade-of Record) deadline will not appear on a student’s academic transcript.

If a student withdraws from a course after the “NGR” deadline but on or before the “W” (withdrawal) deadline, a “W” will appear on their transcript. A “W” notation will not affect the student’s grade point average; however, excessive “W” notations may affect: (1) progress status; (2) status as a full-time student; (3) eligibility for financial aid and other benefits; (4) athletic eligibility; or (5) ability to repeat a course based on Title 5 regulations. Refer to the Class Schedule for important deadline dates.
Incomplete

Incomplete academic work for unforeseeable emergency and justifiable reasons at the end of the term may result in an “I” symbol being entered by the instructor on the student’s permanent record. The student may complete the course work by the end of the following term or semester and receive an appropriate letter grade. If the student does not complete the course work before this deadline, the right of the student to make up the work is forfeited. The student may petition to extend the deadline date because of extenuating circumstances, but this will require the approval of the Dean of Enrollment Services of Las Positas College, or designee, and the instructor of record. The “I” will be replaced with the alternate letter grade assigned by the instructor at the time the incomplete was assigned.

A grade change form will contain the following documentation and shall be maintained by the Dean of Enrollment Services.

- The condition(s) stated by the instructor for removal of the “I”
- The letter grade to be assigned if the work has not been completed within the designated time limit
- The letter grade assigned when the stipulated work has been completed
- The signature of the student

The “I” symbol shall not be used in calculating units attempted or for grade points.

Course Repetitions

California Title 5 regulations, as amended, determine the conditions and processes related to repetition, enrollment, and apportionment limits at California Community Colleges. An “Enrollment” occurs when a student receives an evaluative or non-evaluative symbol on their official transcript (A, B, C, D, F, FW, P, NP, NC, CR OR W, I, IP, RD, MW, or EW). Only a military withdrawal (MW) and excused withdrawal (EW) does not count toward “enrollment.” Unless a course is noted as “repeatable” on the official course outline, the student who receives a satisfactory grade (C, P, or higher) cannot repeat the course, unless an exemption applies per CA Education Code Section 55042(b). If a student receives a substandard grade and/or withdraws from the course, the student is allowed to enroll in that course two more times for a total maximum of three enrollments per CA Education Code Section 58161. California Title 5 regulations specify the circumstances under which a student may repeat a course.

Attendance

It is assumed that each student will consider class attendance an absolute requirement. It is the student’s responsibility to attend every class the scheduled length of time. Excessive absences, tardiness, and leaving class early may be taken into consideration by instructors.

Excessive Absence

A student that has been absent for a total of four consecutive, or six cumulative, instructional hours and/or two consecutive weeks of instruction may be dropped from that class by the instructor.
Reporting Absence

Absences should be cleared personally with instructors. Messages may be sent directly to the instructor’s college email or left directly on the instructor’s voicemail.

Examinations and Evaluations

Students will be expected to take examinations and to complete and submit reports and/or projects. The instructor will determine the scheduling of exams and due dates of reports and projects. Unless the student and instructor have made prior arrangements, the instructor is under no obligation to reschedule missed exams or to extend deadlines for reports and/or projects.
