MATH JAM

**Many of our LPC students have a goal to...
earn a Degree
or to Transfer**

**To achieve this goal, many of them will have to
pass a math class.**

**Math Jam is designed to help
students to achieve this goal
– *faster!***

MATH JAM

Math Jam is will focus on helping students achieve their math goals –

- **From preparing for their upcoming math course**
- **To preparing to retake the Math Placement Test, offered to all Math Jam participants on the last day.**

MATH JAM

During Math Jam, students will receive work in a self-paced environment on the math THEY need support on.

Think **30 tutoring hours PRIOR** to the start of the semester and prior to re-taking the Assessment (Placement) Test.

MATH JAM

Math Jam is FREE to all LPC students.

We will provide everything they need -- including FOOD and supplies -- students just need to come ready to learn....

ASLPC will be providing FREE snacks and drinks!

MATH JAM

During the FREE lunch, we will be offering optional workshops:

- **Group Counseling (to develop a Student Education Plan)**
- **Financial Aid**
- **Brain Research: Growth Mindset**
- **Study Skills**

MATH JAM

Support will be offered at the following levels:

- Pre-Algebra
- Algebra (Elementary and Intermediate)
- Statistics and Probability
- Trigonometry/Pre-Calculus

**THANK YOU FOR
YOUR SUPPORT!**

**It takes EVERYONE to make
a difference!**
