

Three-Year Planning Template for Degree-Granting Programs

Name of Department:	Computer Information Systems
Degree (Example: AAT-History):	AS: Computer Info Technologist / AA: Computer Info Systems / AA: Administrative Assistant
What PSLO will you be assessing during this cycle and why? (If you decide to assess more than one PSLO, please indicate that here as well). We will collect assessment data for the following all of our PSLOs for both of these programs. The results will then be disaggregated to identify potential gaps in student performance in order to develop strategies to close gaps. The strategies will be implemented, and the collection process undertaken again. Note: CIS 66 is a cross-linked course which falls outside of discipline area and will be assessed by a different department. Assessment data for any CNT or CS classes are being collected by those departments.	

Instructions:

1. In the Course column, list all of the courses that are part of the program you are assessing.
2. For each semester, indicate which CSLO(s) you plan to assess.
