

Degree-Granting Programs

Name of Department: Philosophy

Please complete a separate template for every degree & certificate.

Our first PSLO focuses on learning formal logical argumentative technique. Because this is one of the hardest skills for our students, it will be valuable to gather data over several terms for this. Our second PSLO focuses on requiring students to be able to evaluate and apply abstract philosophical theories. This PSLO will be evaluated in our third year of the cycle. It is important to evaluate because of the holistic nature of the PSLO and its application to so many courses.

	Year 1 (2023-24)		Year 2 (2024-25)		Year 3 (2025-26)
