

## TESTIMONIALS

"The things that I enjoyed most in my experience at Las Positas College were the small classes and interactive teachers. At Las Positas, most of the teachers care about their students and go out of their way to help each individual succeed. Through the friends I have made and the clubs I have joined, I have learned to become more comfortable in my skin. If it weren't for Phi Beta Lambda (Business Club), I would not have stayed as determined and focused on my dream to make it into the marketing field. I have served as Events Chair and Vice President. Both positions have opened up a world of possibilities for me. I now know that I am capable of more than I thought I was." *Narjis S.*

"Attending the Business Club conferences gave me the confidence and social skills I needed as a transfer student into UC Berkeley - Haas. Having medaled in competitions against both community colleges and universities in the State Business Leadership Conference, I learned that I had what it takes to thrive in a competitive business environment. Even more, I learned how to build a strong team that drives each member to grow through competition. The incredible bonds I formed in the LPC Business Club are what I tell with excitement during my interviews." *Jesse B.*

"I really liked the friendly atmosphere of the college, as well as the modern design of the campus. The Business Club not only helped me connect with students from all over the state, but also helped me develop my marketing and management skills." *Harmanjot S.*

## TAKE FIVE STEPS TO ENROLL

1. Apply for admission.
